

NEWS RELEASE

Report on Business Impact from Tohoku district-off the Pacific Ocean Earthquake

Yokohama, Japan, March 14, 2011

We sincerely express our sympathy to earthquake victims and truly hope that the area devastated by the earthquake will be reconstructed as soon as possible.

Please be informed of the following report related to our business operations.

1. Facilities

The Hiroshima Operation Center (Higashi-Hiroshima city, Hiroshima pref.) and The Kyushu Operation Center (Ashikita-gun, Kumamoto pref.) have not suffered from any impact and are under normal operation as of March 14, 2011.

2. Employees

All employees have been confirmed safe.

3. Impact to Business

As reported above, our two operation centers have kept normal operation until today. Although we are trying further and deeper investigation on our customers as well as logistics related situation, it is unfortunate that the detailed information is partially not certain.

In case of any impact found to fiscal year 2010 result, we will release an immediate report however we assume that there should be no major issues.
